

Are you or someone you care about at risk of a **HEROIN OVERDOSE?**

Deaths **A**voided **W**ith **N**aloxone

What is Project DAWN?

Project DAWN is a community-based drug overdose education and Naloxone distribution program.

Participants attend a 30 minute class to learn to :

- See the signs and symptoms of an overdose
- Know the different types of overdoses
- Do Rescue Breathing
- Call emergency medical services
- Give the intranasal Naloxone

Participants who complete the class will be given a Project DAWN Kit containing the Naloxone, instructions, and referral information.

Naloxone (Narcan) is a medication that can reverse an overdose from an opioid drug. It reverses the effects of opioids on the brain and restores breathing in order to prevent death.

For more information or questions about Project DAWN
