Portage County Health Department updates Medical Reserve Corps (MRC) website

Portage County Health Department is excited to announce the release of a new and improved Portage County MRC website. This website contains information on MRC training, current news, updates and volunteer opportunities. The MRC is a group of local health professionals, both licensed and non licensed, and can include physicians, RN's, dentists, health educators, veterinarians, students, and community volunteers who are able to assist Portage County during times of a public health emergency.

If you are already a Portage County MRC volunteer, new state regulations require current MRC volunteers to complete MRC training in order to be eligible for liability protection. Basic level training needs to be completed by March 1, 2012. Training is available on the new MRC website at www.co.portage.oh.us/mrc/ or can be done at the Portage County Health Department by appointment.

If you are interested in becoming a MRC volunteer or would like more information, visit the website at www.co.portage.oh.us/mrc/ or contact Kim Villers, Portage County Health Department Emergency Preparedness Coordinator at 330-296-9919 ext. 118.
