WATER ALERT

4/11/2016

Spring Hydrant Flushing Schedule

Fire hydrant flushing is done to remove any sediment or stagnant water from the distribution system and to test fire hydrant operation. These steps are being taken to improve the overall water quality within the distribution system and to insure the delivery of the highest quality of water possible. As in the past, the water may become temporarily discolored while personnel are flushing. The following schedule will give the approximate day we will be in your area.

2016 Shalersville Hydrant Flushing Schedule

Tuesday April 26th - Wednesday April 27th

Total Hydrants in system = 67

2016 Rivermoor Hydrant Flushing Schedule

Thursday April 28th

Total Hydrants in system = 16

2016 Brimfield- Rootstown Hydrant Flushing Schedule

Tuesday May 3rd – Tuesday May 31st

Total Hydrants in system = 317

2016 Lake Royale, Pines (Franklin Township) Hydrant Flushing Schedule

Tuesday June 7th

Total Hydrants in system = 18
